BLUE CUBE SECURITY PROUDLY PARTNERS WITH A WIDE PORTFOLIO OF VENDORS - TO NAME A FEW:

WHY BLUE CUBE SECURITY?

Customer Focused

Blue Cube Security prides itself on being agile, giving them the ability to work with customers as a partnership. The team understand the importance of providing the right solution that integrates existing policies, technologies and procedures, delivering confidence that valuable assets are secure and protected. The team holds valuable market knowledge enabling them to share expertise and guidance of current IT and Cyber Security issues, risks and solutions.

Breadth of Market Knowledge with a Consultative Approach

The Blue Cube Security team is skilled and knowledgeable in the ever-evolving threat landscape. The team apply their expertise to detect and assess, using Blue Cube Security's methodology of 'Intelligent Protection' to help identify what, how and where to protect valuable assets.

Every team member attends The Blue Cube Security Academy to build a foundation of solid knowledge of the market through a comprehensive, continuous training programme, delivered alongside our key partners.

Dedicated Professional and Managed Security Services Team – Cynergy

The Cynergy team provide flexible and scalable Professional and Managed Security services to protect customers within the ever-increasing complexity of the Cyber Security threat landscape. The team are on hand to advise and consult on a range of technical solutions giving customers the opportunity to reduce operational costs and increase the effectiveness of their IT and Cyber Security solutions.

Industry Accredited

Blue Cube Security prides itself on being highly accredited across a range of best of breed solutions in the IT and Cyber Security market, as well as having certifications in major governance and compliance frameworks.

Ongoing Customer Support

Blue Cube Security works with its customers from initial consultation through to solution implementation, optimisation and education. The company's best practice is to offer exceptional customer service, supporting customers throughout a project and after with a UK based 24x7 support desk, giving customers continued peace of mind when they need it most.

Certifications in Major Governance and Compliance Frameworks.
